Scenario 1: Train on time or less than ~5mins late

↳ Notification? → Yes at train departure from origin

→ Then No more

Sc2: Train departed on time but increasingly delayed > ~5mins or departed late

↳ Notif.. @ setoff

↳ Notify once when 5, 10, 15 etc mins late or earlier

← what states of train exist

Sc3: Train is cancelled

↳ Notified @ cancellation (NOT Dep)

~~Sc4: Train is cancelled~~

~~Dep Due 3.02pm~~
